PROJECTS

E-Commerce
📅 04/2025 - 05/2025   📍 Bhopal

I developed a fully functional e-commerce website using Node.js, Express.js, and EJS as the templating engine(html,& tailwind).

- Products fetched dynamically from MongoDB.Category-wise filtering and search feature.
- Each product opens with detailed description, price, and "Add to Cart" button.
- JWT token or session-based login system.
- Password hashing using bcrypt.

ChatApp
📅 05/2025 - 06/2025   📍 Bhopal

I built a real-time chat application using Node.js, Express.js, EJS, and Socket.IO for bi-directional communication.

- Register/Login functionality with secure password hashing.
- Scrollable message container with timestamps.
- Messages saved in MongoDB.
